HIE Office Hours Decorum

- Panelists, please mute yourself when you are not actively speaking
 - Attendees are automatically muted in the webinar
 - To ask a question, please use the Q&A function
 - The Presentation slide deck will be provided in an email following today's session
 - Today's session and past session presentations are all available on the MyHealth Website
- [Resources – HIE Office Hours]

OKSHINE Program Reminders

OKSHINE Connection Fee Assistance Program

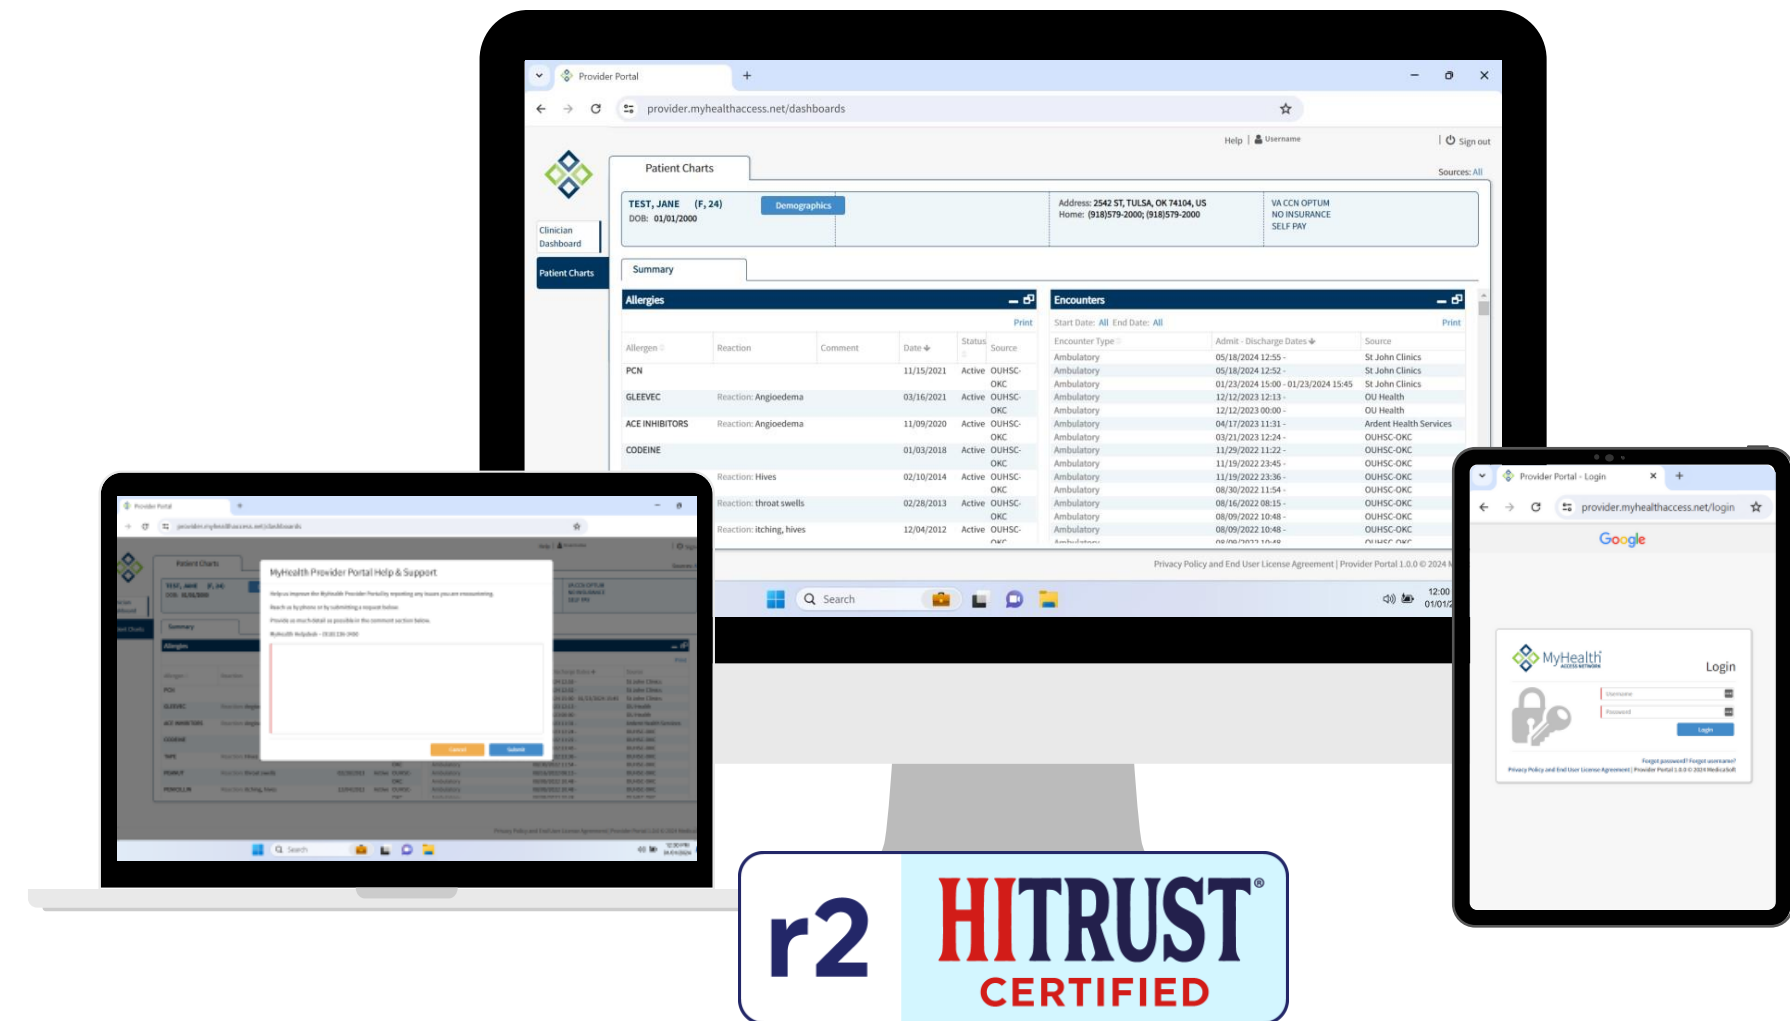

- Any organization that employs licensed Healthcare providers in the state of Oklahoma is eligible.
- Program covers all one-time fees from MyHealth to get providers connected to the state-designated HIE
 - Other related fees may be considered
- **Secure Connection Fee Assistance by applying at [OKSHINE.gov](https://www.okshine.gov)**

SoonerSelect Provider Incentive Program

- Eligible providers can receive an estimated 28% increase in base fee schedule reimbursements for qualifying care and services
 - +18.5% base fee schedule increase for providers participating in SoonerSelect
 - +9.5% for Medicaid providers who participate in MyHealth, both sending data & utilizing the HIE
- **To apply, complete the [MyHealth Application](#)**

What is the MyHealth Provider Portal?

- A secure, web-based platform connecting providers to the MyHealth Access Network, Oklahoma's state-designated Health Information Exchange (HIE)
- Provides real-time access to comprehensive patient information across hospitals, clinics, and health systems in the Oklahoma region
- Displays clinical documents, lab results, radiology reports, encounter summaries, progress notes and much more
- HIPAA-compliant and available 24/7 through a secure login or Single Sign-On (HIELink) integration within your EHR

Searching for a Patient

- Patient Search
 - Only 2 of the 3 fields (Last Name, First Name, DOB) need to be filled in to match on a patient
- Recently View Patients
 - Lists the charts you have viewed in chronological order

The screenshot displays the MyHealth Access Network interface. At the top right, it shows 'MyHealth Access Network | Help | Decker Demo Katy (MHKDECKERDEMO) | Sign out'. On the left, there is a navigation menu with 'Clinician Dashboard' and 'Patient Charts'. The main content area is titled 'Landing Page' and contains two primary sections: 'Patient Search' and 'Recently viewed patients'.

Patient Search

Search fields: Last Name: test, First Name: zz, DOB: 01/01/2000. A 'Search' button is present. Below the search fields is a link for 'Show Advanced Search Fields'.

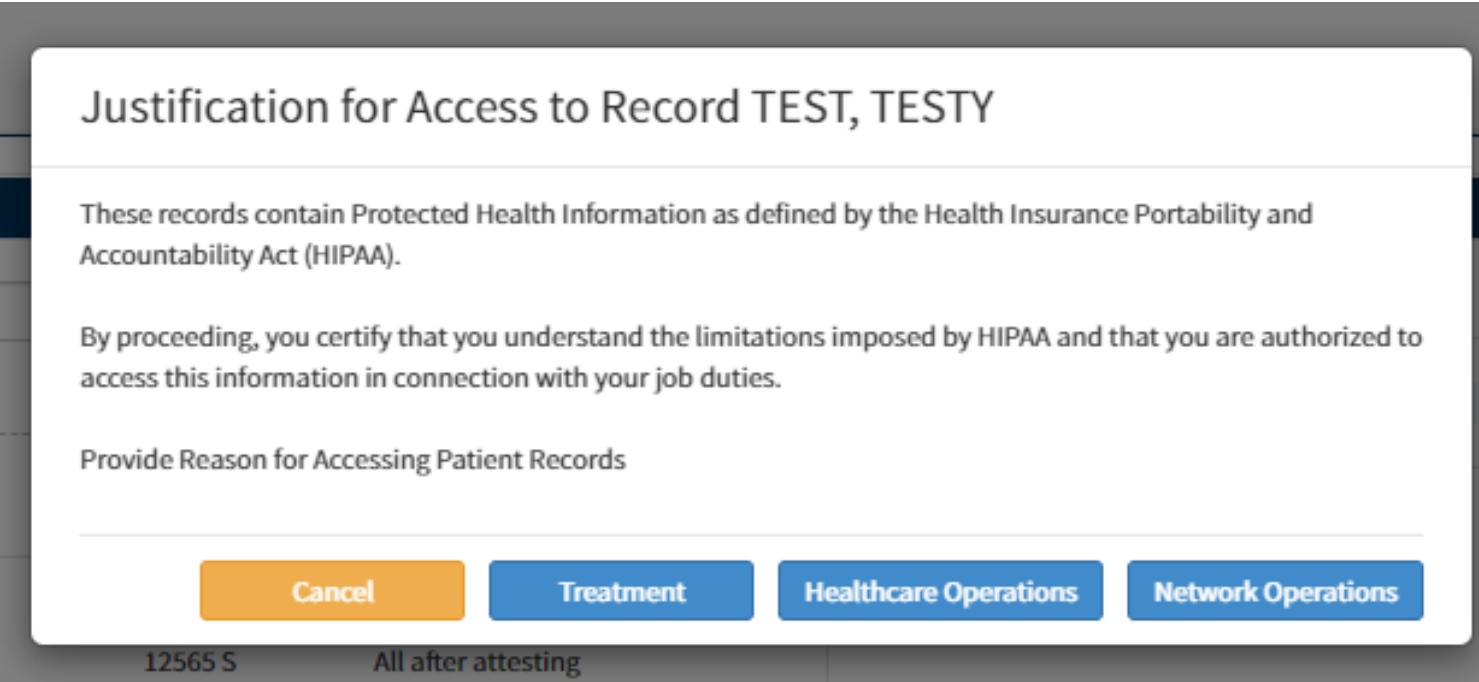

Last name	First name	MRN	Gender	DOB	Age	Address	Pt Records Available
> TEST	ZZ TEST		Female	01/01/2000	24	2542 ST, TULSA, OK 74104. US	All after attesting

Recently viewed patients

Patient	Last Viewed Date	Pt Records Available
TEST, ZZ TEST (F, 24) DOB: 01/01/2000	07/22/2024 15:58	All after attesting
TESTY, TEST (M, 67) DOB: 04/20/1957	07/22/2024 15:58	All after attesting
TEST, TESTY (M, 11) DOB: 01/02/2013	07/22/2024 15:58	All after attesting
ZZTEST, MICKEY MOUSE (M, 12) DOB: 05/25/2012	07/22/2024 15:58	All after attesting

Accessing a Patient's Chart

- Attestation pop-up
 - “Treatment” if you are treating the patient
 - “Healthcare Operations” if you performing administrative work or care coordination (eg. Care Management)

Justification for Access to Record TEST, TESTY

These records contain Protected Health Information as defined by the Health Insurance Portability and Accountability Act (HIPAA).

By proceeding, you certify that you understand the limitations imposed by HIPAA and that you are authorized to access this information in connection with your job duties.

Provide Reason for Accessing Patient Records

12565 S All after attesting

Buttons: Cancel, Treatment, Healthcare Operations, Network Operations

Summary Section

- Contains the **Widgets** - boxes of information including Documents, Encounters, All Results, etc. with items listed chronologically newest to oldest.
- Click the double window icon in the top right corner of any widget to expand it in a new tab.

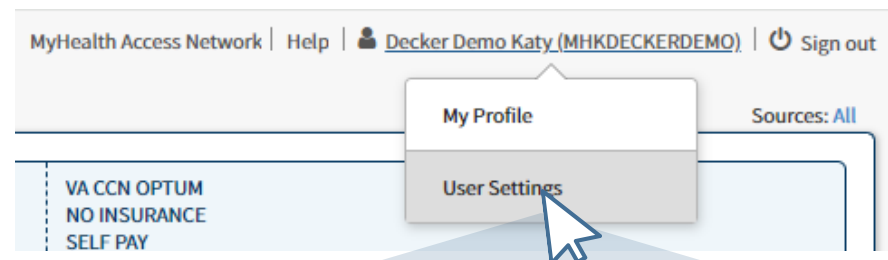

- Some widgets include a search bar to help you find specific results (e.g., encounters from a certain provider).
- When a widget is expanded, each item will show its source document. Documents that are navy blue and underlined when hovered over can be clicked to view more details—this is helpful for seeing where a result came from.

Customizing Your View: Patient Chart Widgets

Navigate to User Settings >> Patient Charts

- Click and drag the widgets within the “visible widgets” to reorder
- Click and drag widgets to the “Available Widgets” box to remove them from your view

Customizing Your View: Refining Data Sources

The Sources Filter allows you to filter on which source organization's data is displayed

Role Based Use Cases

Benefits for Front Desk Staff

- **Streamlined Patient Check-In and Registration**
 - View accurate and up-to-date patient demographics information.
- **Improved Billing and Insurance Verification**
 - View the patient's most recently logged insurance plans.

Accessing Patient Demographics

Patient Demographics are found in the Patient Banner

- Select the Demographics button to view a high level snap shot of your patient's demographics information, as well as:
 - Patient Contact Information
 - Emergency Contact Information
 - Patient's 3 most recent insurance plans

Benefits for Clinical Staff

- **Complete Patient Picture**
 - Access labs, imaging, and notes from across the state in one place.
- **Better Care Decisions**
 - Reduce duplicate testing and catch critical information like allergies or medications.
- **Improved Coordination**
 - Seamless data sharing between hospitals, specialists, and clinics.
- **Time Savings**
 - No more chasing faxes or waiting on record requests.
- **Enhanced Patient Trust**
 - Deliver faster, safer, and more connected care.

Encounters

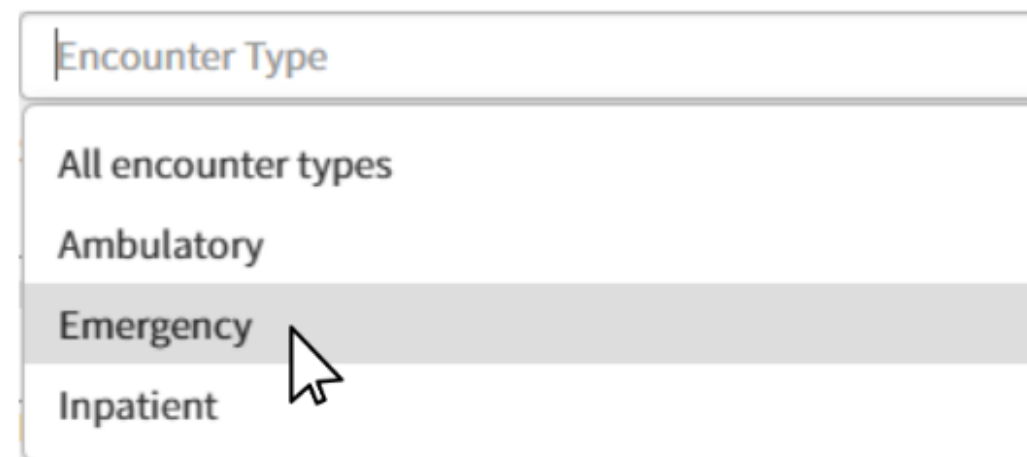

- The Encounters widget displays all patient encounters, including ambulatory, inpatient, and emergency visits.
- Expanding the widget reveals a search field to help you find specific encounters by provider or location.

Search for Provider, Location, Facility Source or Admi

[Print](#)

- You can also filter by encounter type—for example, limit the view to only emergency visits if needed.

Encounter Type

- All encounter types
- Ambulatory
- Emergency
- Inpatient

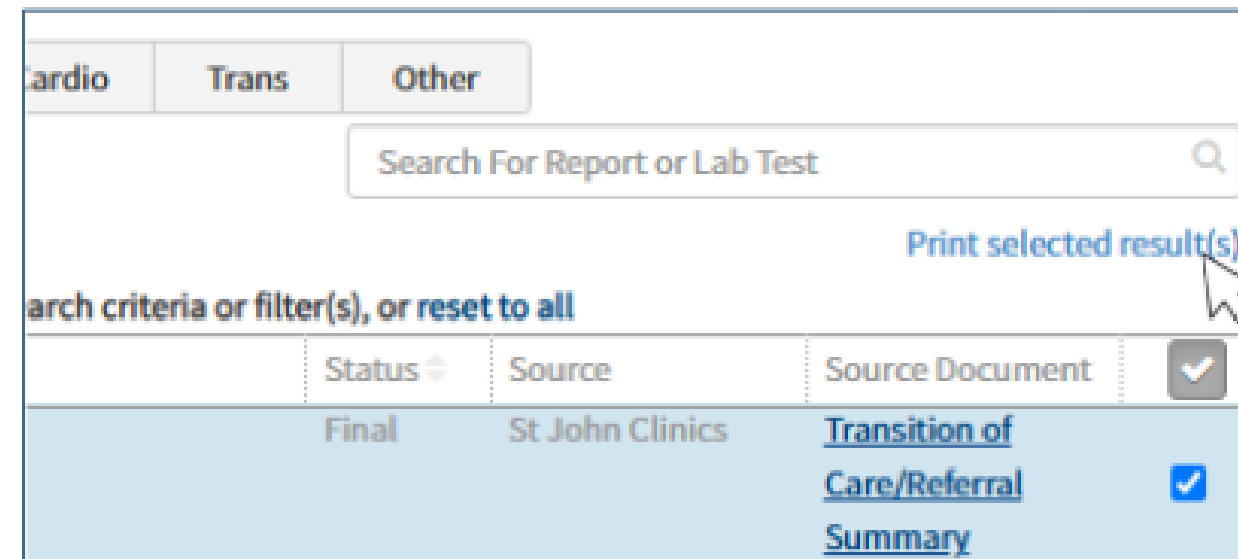

- Be sure to click on any associated documents within the widget to get an overview of the patient's symptoms, changes in lifestyle, or next steps in their care plan.

Documents

- View the most recent care documents and Progress Notes on your patient in the Documents widget.
- Expanding the widget provides a search field where you can look up key terms from the Description column (e.g., "Summary of Care Document").

- To print documents, check the box next to the items you want to print and click “Print Selected Result(s)”.

A screenshot of a document list interface. At the top, there are three tabs: "Cardio", "Trans", and "Other". Below the tabs is a search bar with the placeholder text "Search For Report or Lab Test" and a magnifying glass icon. To the right of the search bar is a blue link that says "Print selected result(s)". Below the search bar is a link that says "Search criteria or filter(s), or reset to all". Below the link is a table with the following columns: "Status", "Source", "Source Document", and a checkbox. The table has one row with the following data: "Final", "St John Clinics", "Transition of Care/Referral Summary", and a checked checkbox. A mouse cursor is pointing at the "Print selected result(s)" link.

Status	Source	Source Document	<input type="checkbox"/>
Final	St John Clinics	Transition of Care/Referral Summary	<input checked="" type="checkbox"/>

All Results

- The All Results widget shows all logged results for a patient—this includes labs, pathology, radiology, and “other” results that may not have a category code (such as progress notes).
 - Review dates and results of preventative screenings, such as mammograms and colonoscopies
- Once expanded, you can search for specific reports or lab tests. Nurses often use this widget to find recent blood work (e.g., CBC) to avoid duplicate testing.
- TIP: If the component name of a test result isn't visible, check the box next to it and click "Print Selected Result(s)" to view the details.

The screenshot displays the 'All Results' widget with a search filter for 'CBC'. The table below shows the search results:

Test	Alert	Type	Date	Provider	Status	Source	Source	Document	Print Selected Result(s)

Medications

- Example:
 - A patient arrives at your clinic with persistent cough and shortness of breath. Through the Provider Portal, you review their current medications and discover they're taking Lisinopril, a common blood pressure medication known to cause chronic cough as a side effect.
 - Instead of ordering unnecessary imaging or prescribing new medications, you recognize the likely cause and adjust their treatment plan by switching them to a different antihypertensive. The patient's cough resolves at the follow-up visit.

Allergies

- Review your patient's allergies to inform prescription decisions.

Summary		Allergies ✕					Print
Allergen ⌵	Reaction	Comment	Date ⌵	Status ⌵	Source	Source Document	
No known value			04/13/2020	Active	INTEGRIS Health	Summary of Care	
No known value			04/27/2016	Active	INTEGRIS Health	Summary of Care	
NOT ON FILE				Active	Mercy Health System	HL7V2 message	
				Active	INTEGRIS Health	HL7V2 message	
				Active	INTEGRIS Health	HL7V2 message	
NO KNOWN ALLERGIES				Active	INTEGRIS Health	HL7V2 message	

- Example:
 - Hannah, a new patient, visits your clinic with a sore throat. Lab results confirm a strep throat infection. Upon reviewing her allergy information in the Provider Portal, you note a penicillin allergy and prescribe Clindamycin as an alternative treatment.

Benefits for Care Managers

- Complete Client Picture
 - Review client care history before appointments to guide meaningful conversations.
- Seamless Care Coordination
 - See recent procedures, diagnoses, and progress notes to support coordinated follow-up.
- Streamlined Client Communication
 - Access up-to-date contact information of your client and their social network.
- Build Client Trusted
 - Relieve patients from recounting their care history—keeping the focus on their needs and next steps.

Progress Notes

- Locate Progress Notes within the Documents widget.
 - Tip: you can reorder the “Type” column to group Progress Notes together

INTEGRIS Health	Summary of Care	03/24/2025 08:22

Progress Notes

- Example:
 - While reviewing progress notes in the Provider Portal for your client, you notice that during a visit with their primary care provider they expressed difficulty affording medications for their diabetes and hypertension. The provider documented that the patient was “trying to stretch prescriptions” by taking smaller doses.
 - Recognizing the risk of medication non-adherence, you contact the patient to discuss support options. During the call, you connect them with assistance programs for discounted prescriptions.

Patient Relationships

- The Patient Relationships widget provides contact information for their care takers and loved ones, which can serve as alternative routes for contacting your client.
